Because of inherent limitations in any system of internal accounting and administrative controls used in administering federal financial assistance programs, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of the systems to future periods is subject to the risk that procedures may become inadequate because of changes in conditions or that the degree of compliance with the procedures may deteriorate.

Our study included all of the applicable control categories listed above. During the year ended December 31, 1988, the town had no major federal financial assistance programs and expended 100% of its total federal financial assistance under the following nonmajor federal financial assistance programs: Federal Revenue Sharing. With respect to internal control systems used in administering these nonmajor federal financial assistance programs, our study and evaluation included considering the types of errors and irregularities that could occur, determining the internal control procedures that should prevent or detect such errors and irregularities, determining whether the necessary procedures are prescribed and are being followed satisfactorily, and evaluating any weaknesses.

With respect to the internal control systems used solely in administering the other nonmajor federal financial assistance programs of the town, our study and evaluation was limited to a preliminary review of the systems to obtain an understanding of the control environment and the flow of transactions through the accounting system. Our study and evaluation of the internal control systems used solely in administering these nonmajor federal financial assistance programs of the town did not extend beyond this preliminary review phase.

Our study and evaluation was more limited than would be necessary to express an opinion on the internal control systems used in administering the federal financial assistance programs of the town. Accordingly, we do not express an opinion on the internal control systems used in administering the federal financial assistance programs of the Town of Greenwood.

Also, our examination, made in accordance with the standards mentioned above, would not necessarily disclose material weaknesses in their internal control systems, for which our study and evaluation was limited to a preliminary review of the systems, as discussed in the fifth paragraph of this report.

However, our study and evaluation and our examinations disclosed no conditions that we believe to be a material weakness in relation to a federal financial assistance program of the Town of Greenwood.

This report is intended solely for the use of the Board of Selectmen of the Town of Greenwood and other administration officials, the U.S. Department of Treasury and the Federal Emergency Management Agency, and should

not be used for any other purpose. This restriction is not intended to limit the distribution of this report which, upon acceptance by the Board of Selectmen of the Town of Greenwood, is a matter of public record.

**TOWN OF GREENWOOD
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 1988**

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The accounting policies of the Town of Greenwood conform to generally accepted accounting principles as applicable to governmental units.

A. Basis of Presentation:

The accounts of the Town are organized on the basis of funds or account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance, revenues, and expenditures. The various funds are grouped by type in the financial statements.

Governmental Funds:

General Fund - The general fund is the general operating fund of the Town. All general tax revenues and other receipts that are not allocated by law or contractual agreement to another fund are accounted for in this fund. From the fund are paid the general operating expenditures, the fixed charges and the capital improvement costs that are not paid through other funds.

Federal Fund - The federal fund is used to account for revenues derived from federal revenue sharing funds.

Fiduciary and Reserve Funds:

Fiduciary Funds - Trust funds are used to account for assets held in trust by the Town for others.

Reserve Funds - Reserve funds are set aside by a vote of the Town for the future of capital improvements.

B. Basis of Accounting:

The modified accrual basis of accounting is followed by the governmental funds. Under the modified accrual basis of accounting, revenues are recorded when received in cash except for property tax revenues which are recorded as deferred tax revenues unless collectible within sixty days following the

year end. Expenditures, other than interest on long term debt, are recorded when the liability is incurred.

C. General Fixed Assets:

The Town does not maintain a record of its general fixed assets. Expenditures for property and equipment are charged against departmental operations whenever such items are purchased.

Combined Auditor's Report on Compliance at the
General Purpose Financial Statement Level and the
Federal Financial Assistance Program Level (No Major Programs)

Board of Selectmen
Town of Greenwood
Greenwood, Maine

We have examined the general purpose financial statements of the Town of Greenwood for the year ended December 31, 1988, and have issued our qualified report thereon dated May 12, 1989. Our examination was made in accordance with generally accepted auditing standards; the standards for financial and compliance audits contained in the **Standards for Audit of Governmental Organizations, Programs, Activities and Functions** issued by the U.S. General Accounting Office; the Single Audit Act of 1984; and the provisions of OMB Circular A-128, **Audits of State and Local Government**, and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The management of the Town of Greenwood is responsible for the town's compliance with laws and regulations. In connection with the examination referred to above, we selected and tested transactions and records relating to certain nonmajor federal financial assistance programs. The purpose of our testing of transactions and records was to determine the town's compliance with those laws and regulations for which noncompliance could have a material effect on the allowability of program expenditures or on the town's general purpose financial statements.

The results of our test indicate that, for the transactions and records tested, the Town of Greenwood complied with the laws and regulations referred to above. Our testing was more limited than would be necessary to express an opinion on whether the Town of Greenwood administered the nonmajor federal financial assistance programs in compliance, in all material respects, with laws and regulations for which noncompliance could have a material effect on the allowability of program expenditures. With respect to the transactions and records that were not tested by us, nothing came to our attention to indicate that the Town of Greenwood had not complied with the laws and regulations other than those laws and regulations for which we note violations in our testing referred to above.

SOCKELEXES

Just a sunburned, wrinkled mortal
Just a bit of weathered life
Just a victim of the progress
Just a relic of the strife
Just a bit of Picturesqueness
Just a glint of battered gold
Just a blanket gay and woven
With old memories in each fold.
